

HE IS ALL RIGHT.

INDIANA GIVES GREAT GAINS FOR M'KINLEY.

The State Conceded by the Democratic State Committee—State Carried by a Large Majority.

A GREAT REPUBLICAN VICTORY.

CHAIRMAN JONES REFUSES TO ADMIT DEFEAT OR GIVE UP.

Bulletins From the Precincts—The Growth of the Candidates' Majorities Yesterday—The Legislative Contest.

BY ASSOCIATED PRESS WIRE.

INDIANAPOLIS (Ind.) Nov. 4.—At 3 o'clock this evening Chairman Martin of the Democratic State Committee claimed that it would require the official count to determine the result in Indiana. At that hour he had received returns from eighty-one of the ninety-two counties, showing a plurality for McKinley of 32,175. These did not include Marion county which would increase McKinley's plurality to about 13,000.

Chairman Martin, however, charges that in some counties of the State the Democrat and Populist votes were not aggregated, which, if true, would decrease McKinley's apparent plurality and for this reason he will await the official count. In Indiana, the first time to hear from the State, the eighty-two counties heard from at 8 o'clock showed a Democratic loss over 18,92 of

by 2,500 to 2,000. Several interior isolated counties will not be heard from for a day or two. Kansas goes for Bryan and Sewall by a small majority.

A UNITED PRESS ESTIMATE.

CHICAGO, Nov. 4.—The United Press dispatches indicate the election of McKinley by the following electoral vote: New England, New York, New Jersey, Pennsylvania, Ohio, Wisconsin, Maryland, Illinois, Kentucky, West Virginia, Indiana, Michigan, Minnesota, South Dakota.

The following States are for Bryan: South Carolina, Georgia, Alabama, Florida, Mississippi, Louisiana, Arkansas, Montana, Idaho, Colorado, Utah, Nevada, Texas, Virginia, Nebraska,

Missouri, North Carolina, Kansas.

The following are doubtful: Wyoming, North Dakota, California, Oregon, Washington, Delaware.

Late returns from Kentucky increase the Bryan vote in that State, but McKinley will probably carry it by a handsome majority. The Republicans have handsome majorities in both houses of the next Congress. The latest returns from California favor McKinley.

TENNESSEE RETURNS MEAGER.

NASHVILLE, Nov. 4.—The returns are meager. The Democrats claim the State for Bryan and there is a probability that he will get a small plurality. The Republicans still claim the State by a small plurality, and are confident of the election of their candidate for Governor.

TOWNE DEFATED.

MINNEAPOLIS, Nov. 4.—The Journal claims "Towne's defeat for Congress in the Sixth District. Morris carried St. Louis county, in which is Duluth, by 15,000, but lost Stearns by 3,000.

"IMPOSSIBLE I SHOULD LOSE."

DULUTH (Minn.) Nov. 4.—"My latest advices lead me to believe that I am re-elected. The returns are slow and fragmentary, however, and the result is not a certainty until they are more nearly complete. I am conceded Stearns by 2,000 majority by the opposition, and if that is well founded, it seems impossible that I should lose. The opposition has every precinct but two in Duluth, and will probably carry St. Louis county by a small majority.

(Signed) CHARLES A. TOWNE."

THIRTY-FOUR COUNTIES.

MINNEAPOLIS, Nov. 4.—Estimates in thirty-four out of eighty-one counties to be heard from show McKinley over Bryan, 13,405. Clough, for Governor, is 11,000 less than this. As many counties to be heard from are fusion strongholds, Clough may yet lose to Lind.

THE NEXT SENATE.

IT WILL Probably Be Republican by 42 to 32.

WASHINGTON, Nov. 4.—From the returns thus far received the next Senate will probably stand as follows: Republicans, 42; Democrats, 32; Independents and Populists, 11; doubtful, 5. On the currency question the Senate undoubtedly will have an anti-silver majority. The doubtful States are Delaware, Kansas, Kentucky, North Carolina and South Dakota. The Republicans would need forty-five, with the Vice-President, to control the Senate.

Telegrams from other parts of the State, Mr. Martin says, disclose a similar condition. As the Populist vote in the State amounts to 30,000 practically all of which the Democrats claim, a future aggregation of the vote would offset a plurality for McKinley of many thousand.

It will be some time before it can be determined whether the vote has been aggregated, and pending such knowledge the State will in doubt.

JONES DIES HARD.

CHICAGO, Nov. 4.—Senator Jones issued the following statement tonight: "I have counted from the beginning as the States upon which we relied upon for Mr. Bryan's election the Southern States, with 156 votes, and the States west of the Missouri, with 61, making a total of 217. We have hoped that we would win Indiana, Michigan and Minnesota. I believe we have carried every Southern State except Maryland and that we have carried all of the Western States heretofore counted

15,442. In some of the counties still to be heard from, the Democrats expect considerable losses. Chairman Graydy, of the State for McKinley, by at least 25,000, it is safe to say that McKinley's plurality in Indiana will not be less than 15,000 nor more than 25,000. The Republican State ticket is also elected by a safe majority.

Chairman Martin of the Democratic State Committee, has just received a telegram from the Democratic chairman of Marshall county, saying that in the estimate from that county the Democratic-Populist vote was not aggregated, which would make a difference in favor of the Democrats of over 3,000 votes.

(By ASSOCIATED PRESS WIRE)

WHEELING (W. Va.) Nov. 4.—Incomplete returns received during the day continue to show Republican gains, and there is no reason to change last night's figures of 15,000 plurality. All four Republican candidates for Congress are undoubtedly elected by increased majorities.

PHOENIX (Ariz.) Nov. 4.—Returns complete from all parts of Arizona, insure to Smith (Dem.) for Congress a plurality of 1000 over either the Republican or Populist nominees. The Legislature will probably be fully two-thirds Democratic. Local Democratic tickets had had almost a clear sweep in the principal counties.

EFFECT AT LONDON.

Business on the Stock Exchange Opens with a Rush.

LONDON, Nov. 4.—(By Atlantic Cable. Associated Press Copyright, 1896.) The election of McKinley to the Presidency of the United States has had a marked effect upon the American securities here today. Business on the Stock Exchange opened with a rush to buy Milwaukee and Louisville led the entire list with advances of \$2 to \$6, which sent brokers flying hither in every direction to join in the wild hubbub inside, while in the streets customers were coming up by dozens.

According to the general impression the election will result in a rapid diminution of gold withdrawals from the United States, and there is no doubt that a McKinley victory has favorably affected the Stock Exchange throughout. The consols opened 3% higher than

Latest Election Returns of Cities and Counties from Humboldt to San Diego—A Good-sized Vote was Pollled.

(By ASSOCIATED PRESS WIRE)

SAN FRANCISCO, Nov. 4, 6 p.m.—No later figures can be given on the Presidential contest in California until perhaps 8 or 9 o'clock this evening, but the last tabulations leave no reasonable doubt that McKinley has carried the State by at least 5000.

McKinley figures on Congressmen make it reasonably certain that the Republicans have elected the following:

First District—Barham.

Second District—Hilborn.

Fifth District—Loud.

Sixth District—McLachlan.

Seventh District—Barlow.

The Democrats have elected the two remaining Congressmen, DeVries in the Second District and Maguire in the Fourth District.

The Legislature also appears to be Republican by nearly two-thirds majority, from the returns which had come in, though the Constitutional amendment providing for woman suffrage has been defeated by a large majority.

THE LATEST.

SAN FRANCISCO, Nov. 4.—It is now certain that McKinley has carried California by at least 8000. Up to midnight returns from 269 precincts out of a total of 2377 in the State had been received. These give McKinley 133,

WHATGERMANS SAY.

COMMENTS ON THE ELECTION IN THE FATHERLAND.

McKinley's Election Received with Great Satisfaction Except by the Bimetallists—Interview with a Prominent Bimetallist Leader on the Probable Effects.

(By ASSOCIATED PRESS WIRE)

BERLIN, Nov. 4.—(By Atlantic Cable. Associated Press Copyright, 1896.) The result of the election in the United States was received throughout Germany with great satisfaction, except by the bimetallists. A high official of the Foreign Office said: "The government is pleased with the result, and congratulates the American people on ridding themselves for good of an incubus and danger of financial upheaval which would follow the unsettling of the currency. All the civilized nations will profit by the outcome of the election, especially Germany, owing to the intimate, important commercial and economic relations with the United States."

For Congressmen the Republicans will not do quite so well. The Democrats have certainly elected De Vries from the Second District. The candidates in the Seventh are so close as to make both Republican and Democratic candidates nervous until the count is finished. The only districts the Republicans are sure of are the First, Third and Fifth.

As to the Legislature it seems probable that the Republicans will be in control on a joint ballot.

Secretary Higgins of the State Republican Committee said the Republican majority on a joint ballot would be five thousand. The Democrats claimed tonight that there was a fusion majority in the Assembly, and that the parties would be close on a joint ballot. In San Francisco the Democrats elected the only two San Franciscans and eleven out of sixteen Assemblymen.

Outside of San Francisco, complete returns have not been received from all the Assembly districts, but the returns so far received show forty-two Republicans, nineteen Democrats and one Populist in the lead.

1708 PRECINCTS.

SAN FRANCISCO, Nov. 4.—Complete returns from 1708 out of 2377 precincts in California give McKinley 120,483; Bryan 112,556. In 1892 the 669 missing precincts gave Harrison 21,044; Cleve 21,600.

In the Third Congress District 244 out of 265 precincts give Hilborn (Rep.) 19,225; English (Dem.) 15,196.

In the Seventh Congress District 388 out of 453 precincts give Hilborn (Rep.) 15,643; Carlson (Dem.) 6,061.

One of the Counties That Went Wrong. FRESNO, Nov. 4.—This county has apparently given Bryan 900.

SIXTY-FOUR PRECINCTS.

FRESNO, Nov. 4.—Sixty-four precincts in Fresno county out of a total of 73 give the fusionist electors 984 majority. The total majority will be about 1100. Castle's majority over Bowers will be less than 500.

There is a gain of Republican Supervisor. Cope, (Dem.) has a majority of over 1000 for Superior Judge. McLachlan's majority is 75.

ALAMEDA.

McKinley Will Have at Least 5100—Suffrage Defeated. BY ASSOCIATED PRESS WIRE. OAKLAND, Nov. 4.—McKinley will have at least 5100 majority in Alameda county. Complete returns give McKinley 13,229; Bryan, 8651. The same count gives Hilborn a majority of 492 over English.

Tom Wells, fusion candidate for Supervisor in the First District, has just 40 majority over F. C. Jarvis, his Republican opponent. The election of Wells was conceded to Jarvis, but when it was seen that there had been a McKinley wave, it was thought that Jarvis would pull through with the rest of the ticket. The rest of the candidates are elected by either sweeping or safe majorities.

The defeat of the suffrage amendment in the county was one of the surprises of the election.

HARTFORD ALSO OPENS HER FACTORIES TO LABOR.

Business in All Parts of the Broad Land is Now at Full Blast and the General Prosperity of the Country Assured.

(By THE TIMES' SPECIAL WIRE)

PITTSBURGH, Nov. 4.—(Special Dispatch) As soon as it was known that McKinley was elected Pittsburgh began to experience a business revival. The new structural steel mill which has been running spasmodically, went on in full operation, working on orders that had been received and been contingent on election. Two hundred men who have been idle for four months were put to work at once.

Sug & Co. put on twenty-two additional men in the puddling department, and the Pittsburgh Forge and Iron Company had added 100 more men to its list of employees. More than six hundred men are employed at the Pennsylvania Railroad shops at Wall, and for more than a year they have been working only eight hours a day and five days a week. Before 7 o'clock this morning notices were posted that from now on men would be given 10 hours a day and seven days a week if they wanted to work. Their wages which had been cut some time ago were increased 10 per cent.

OPERATIONS AT HARTFORD

HARTFORD (Ct.), Nov. 4.—Several large manufacturing concerns in this part of the State will resume operations at once, or will increase the number of working hours on account of the election. Among them is the Glastenbury Knitting Company, which has a factory in Madison and one in Manchester Green. These factories have been closed because of the financial uncertainty. Notice was given today that they would resume next Monday, business confidence among their customers having been restored.

Notices were posted today in the large factory of the Stanley Rule and Level Company in New Britain that, beginning this week, the shops would be six days a week instead of four, which had been the schedule for the past two months.

Superintendent, K. Jones of Russel & Erwin's screw works in New Britain, issued this order to his foremen today: "Start up all your machines, and hire all the help you need to run them." There are similar reports from other towns in this section.

Something Besides Bryan.

(Chicago Times-Herald) There is something in this campaign besides Bryan's voice. The silent, thoughtful people of Chicago will outrace the noisy shouters by a hundred thousand majority on November 3. Noise and voice are arguments this year. Such a man as the one which followed the magnificent sound-money demonstration of railway men on Saturday night will not daze the solid men of Chicago. It merely impresses the minds of the voters who have the courage to stand with the necessities for doing their whole duty at the polls next Tuesday.

The noise of the mob that will follow Bryan through the streets of Chicago may well fool no one. They are only a handful compared with the army which uses its brains instead of its voice and which will silently register on Tuesday a tremendous protest against mob rule, repudiation and financial disaster.

The louder the Popocat noise and the egg the bigger the majority for McKinley, sound money and protection.

Her Mistake.

(Chicago Post) He drew her toward him, and after a few brief moments of kisses and rapture of various kinds he asked, "What kind of an engagement ring would you prefer?"

She looked shily into his face, and declined to express a preference until she had been further pressed. Then she said:

"Well, I've been accustomed to—" She then burst into tears in order to prevent a dreadful faux pas or some other frightful French thing. However, he is still pondering her answer, and troubles him mightily.

A Bargain.

(Rockland Tribune) "Say!" called David, "how happens it we get two copies of the paper every week?"

"I subscribed for them."

"What for? Ain't one copy enough? Costs \$3 a year, doesn't it?"

"Yes," retorted Dora; "\$3 a year, or two copies for \$5 You don't suppose I was going to miss such a chance to save a dollar as that, do you?"

A Criterion of Art.

(Pittsburgh Chronicle-Telegraph) Birmingham. Your daughter is to marry a young man named Hill, I believe?"

"Manchester. Yes, he belongs to one of the very oldest families in the country."

"I didn't know that he came from a particularly old family."

"Oh, yes; you often hear people use the expression, 'As old as the Hills.'"

Originality.

(Cleveland Plain Dealer) "That new reporter of ours is a lucky find."

"What has he done?"

"What's the matter of saying that the crowd at the big meeting last night was packed closer than sardines? he said they crowded each other like fraudulent votes in a stuffed ballot box."

(Young Statesman) Crimsonbeak, I knew that fellow Storms, the comedian, would come to the front.

Yeast. And he has, he?

"Why, certainly. You remember he used to say the part of the hind legs to step him in the chimney-place, and to thrust his feet forward to give his indulgence in personal comfort? CALIFORNIA IN LINE.

Returns thus far received make it practically certain that California's electoral vote will be given to McKinley. It is not likely that the scattering returns yet to come in can overcome the lead of the McKinley electors, and they may increase it.

Though the Republican plurality in California is not large, it is nevertheless a great victory, won against heavy odds. A stupid blunder was made at the outset, when, through the machinations of a coterie of small-fry politicians and thick-headed, cowardly journalists, the Republicans of the State were for a second time placed in the false position of indorsing the free-silver fallacy, against the known opposition of the national Republican party to that scheme of partial repudiation. The placing of California Republicans in this position was a serious blunder, not alone because it grossly misrepresented their true sentiments, but because it compelled them to change front in the face of the enemy, a proceeding which in politics, as in war, is necessarily fraught with grave danger. The necessity for this change of front might have been avoided by the exercise of common horse-sense—a quality which, unfortunately, was not possessed by the small-fry politicians and shallow journalists aforesaid, who took it upon themselves to "run" the Republican party of California.

Then, to make the battle still more difficult, the Republicans were confronted by the most complete fusion of their opponents ever accomplished in the State. This formidable combination mobilized and massed all the opponents of Republicanism, and in an ordinary contest would have been sufficient to overcome all opposition. But the Presidential campaign of 1896 was no ordinary political contest. It was a battle royal, in which principles of supreme importance were at stake. The battle has been fought royally by the Republicans of California. They have won what is, under the circumstances, a magnificent victory. In the face of opposition which made their cause seem well-nigh hopeless, they have reversed the Demo-Populist plurality and have wrung victory from the very jaws of defeat.

This result shows what may be achieved by firm adherence to principles, in the face of all obstacles and all discouragements. The Republicans of California are entitled to all honor and all praise for the superb victory which they have won. They have the satisfaction of knowing that it was won in a noble cause—the cause of patriotism, of national honor, protection, sound money and good government. But they should not forget, in the midst of their rejoicing, that this splendid achievement is in no small degree due to the unselfish and patriotic action of sound-money Democrats, who placed country before party and battled shoulder to shoulder with the Republican hosts for all that is highest and best in our system of government.

CALIFORNIA CONGRESS DISTRICTS.

The latest election returns received indicate that the Republicans have carried five out of the seven Congress districts in this State. Barham is reported elected in the First District, Holborn in the Third and Loud in the Fifth. In the Sixth District the returns, as telegraphed by the Associated Press from San Francisco, announce McLachlan elected, but the vote is so close that the correctness of this cannot as yet be confidently asserted. In the Seventh District there seems to be no doubt but that Bowers has defeated Castle. The Democrats have elected De Vries in the Second and Maguire in the Fourth District.

The Golden State, the best-loved State of all, the State for whom its native and adopted sons have a love surpassing that of all other sons for all other States, has, thank God, joined the glad throng that is now marching along for honor, prosperity and McKinley. Glory, hallelujah!

noon with a majority of 3086 for Bryan, which is 486 more votes than the total combined vote of Democrats and Populists cast last year at the election for Governor of the State.

The one great fact, however, still holds fast and good; it is that Maj. William McKinley is elected the next President of the United States.

NOTABLE FEATURES OF THE CAMPAIGN.

The election returns show that this campaign presents some unusually interesting features, and which it is well to note, by the way.

In Virginia the ultimate result will undoubtedly show that the electors of that State will be for Bryan, but the figures also show that they have been elected by a heavily-reduced Democratic vote.

In Texas the attempted fusion between the Republicans and the Populists has resulted in a miserable failure. This may be considered matter for congratulation. There is no honorable ground on which a Republican can fuse with a Populist.

Kansas remains up to the present moment an enigma. So far the returns have practically demonstrated nothing. They show Democratic gains in some districts, but these are fully offset by Republican gains in other districts.

Minnesota, which during the earlier days of the campaign was so confidently claimed by the Populists, has surprised no one so much as that nondescript party. The plurality for McKinley in that State is so large that anarchy and repudiation will no longer claim a foothold there. All honor to Minnesota!

Maryland has covered herself with glory. The vote of that State shows an interesting reversal from that of the last Presidential election. In 1892 Cleveland carried it by over 21,000. This year it gives McKinley a plurality of just about that number.

Our own State is another surprise to those presumptuous arrogants who have shown themselves the natural allies of anarchy, disorder and leagued proscription, and who vainly imagined that their loud bellowings would frighten California's people from the path of honor and the highway of prosperity. They have been relegated to their infamy; let them there remain.

THE RESULT IS NOT CLOSE.

It would have been unfortunate, for many reasons, if the result of the national election had been close. While a majority of one or two votes in the electoral college is no less decisive, legally, than a majority of 100, so far as giving the reins of government to the victorious party is concerned, the party that wins by a narrow margin is necessarily handicapped in no small degree by the closeness of the vote. When great issues are determined by an overwhelming majority, they are regarded as settled for years, if not for all time. If the vote be close, on the other hand, the supporters of the losing cause are apt to continue their agitation, in the hope of ultimate success. And the constant agitation of issues vitally affecting the integrity of the nation and the welfare of its people inevitably has a depressing effect upon all interests, and creates conditions upon which the demagogue thrives and in which the anarch delights.

As Maj. McKinley has received close upon 300 electoral votes, as indicated by later returns, the flat-silver delusion has been rudely set back, if not crushed for all time. Within one week after the election a grand business revival will set in, and the response of the nation will be so prompt and energetic as to convince even the more conservative free-silver advocates that their defeat was for the best. We shall witness a great revival of confidence and of business following Maj. McKinley's election. This revival will be prompt, permanent and extensive, because of the unmistakable verdict of the country upon the issues passed upon by the people.

President McKinley's administration is certain to be one of the most notable in the history of the country. His election presages four years of prosperity. These four years will be so beneficial to the nation that the blessings of McKinley's election will be everywhere apparent in the land. Four and probably eight years of prosperous times will eliminate the disturbing issues which now agitate the nation, and clear the way, let us hope, for a future even grander than our past.

At 7:30 last night the compilation at San Francisco placed McKinley 7247 ahead of him in this State. The counties of Del Norte, Modoc, Lassen, Inyo and Alpine are the only outlying counties from which full returns cannot be received within twenty-four hours. At the gubernatorial election of 1894 Del Norte cast but 609 votes, of which 238 were Republican; Modoc, 113, of which 337 were Democratic and 289 Populist; Alpine, 98 votes, of which 68 were Republican; Lassen, 1066, of which 421 were Republican; and Inyo, 872, of which 476 were Republican. Hence it is difficult to see how any vote in the five counties above named can change the result of the late reports.

The New York Evening Post reports only 1500 Republican majority in Delaware, but it must be recollected that Delaware is a very small State, about as big as an average county in Arizona or Washington. In the gubernatorial election of 1894 Joshua H. Marvill carried it by 632 for the Republican party, there being a Prohibition vote of 589. "The Blue Hen's Chicken" polled a total of only 39,128 in that year, so that nothing but a close vote could have been expected.

Alameda takes the cake—also the banner.

THE TIMES' BATTLE.

As the smoke rises from the battlefield and the lurid fires dwindle into smoldering embers, and the glorious flame of victory lights the nation's horizon, the thought comes back as to how the battle was won. Clearly by a coalition between capital, labor and good citizenship. The best men of the nation came voluntarily to the support of McKinley merely because he stood for good government, national honor, sound money and obedience to the law of the land. He therefore represented all that was eminently worthy of preservation in the American republic, and his victory was an assured fact the moment he was nominated.

The battle for McKinley in California has not been an easy one. The fight, so far as The Times is concerned, was a lonesome one in the outset. The Examiner, owned by a silver-mine owner, was wedded to his own interests, which was naturally to be expected, but the aid of the Call and Chronicle was merely half-hearted. From the very day he was nominated till the polls closed, it seemed as if those papers were for McKinley all the time.

Kansas remains up to the present moment an enigma. So far the returns have practically demonstrated nothing. They show Democratic gains in some districts, but these are fully offset by Republican gains in other districts.

Minnesota, which during the earlier days of the campaign was so confidently claimed by the Populists, has surprised no one so much as that nondescript party. The plurality for McKinley in that State is so large that anarchy and repudiation will no longer claim a foothold there. All honor to Minnesota!

Maryland has covered herself with glory. The vote of that State shows an interesting reversal from that of the last Presidential election. In 1892 Cleveland carried it by over 21,000. This year it gives McKinley a plurality of just about that number.

Our own State is another surprise to those presumptuous arrogants who have shown themselves the natural allies of anarchy, disorder and leagued proscription, and who vainly imagined that their loud bellowings would frighten California's people from the path of honor and the highway of prosperity. They have been relegated to their infamy; let them there remain.

MODERN DEMOCRATIC DECADENCE.

With the present date W. J. Bryan goes into the ranks of the more or less respectable obscurities. He has said that, if defeated for the Presidency, he would run for United States Senator from Nebraska and see that no protection legislation was done after he got there. Unless there are an unusually large number of Populist hold-over Senators from Nebraska at the forthcoming session of her Legislature, Mr. Bryan will be as badly disappointed in that as in everything else.

Without such a support, which is far from being probable, Mr. Bryan will relapse into the obscurity whence he sprang. There will never be an occasion again, during his lifetime, when a man of as meager ability and light caliber, either as politician or statesman, can get a nomination for the Presidency. The Democracy, no longer under the control of the silver-mine combination, will insist upon the nomination of a man of national reputation as its leader, even with the certainty of defeat staring him in the face, as it did Seymour in 1868. The party which stands up manfully and gets whipped in defense of a principle can rally its broken hosts about it once more in defense of that principle and make a better fight than before.

But will the Democracy ever be able to make another national battle? It is exceedingly doubtful, from the fact that, in its anxiety to fuse with the long-whiskered gentry from the plains of Kansas and Nebraska, it forsook every vestige of principle and clung simply to its greed of office. It was witness a great revival of confidence and of business following Maj. McKinley's election. This revival will be prompt, permanent and extensive, because of the unmistakable verdict of the country upon the issues passed upon by the people.

President McKinley has received close upon 300 electoral votes, as indicated by later returns, the flat-silver delusion has been rudely set back, if not crushed for all time. Within one week after the election a grand business

revival will set in, and the response of the nation will be so prompt and energetic as to convince even the more conservative free-silver advocates that their defeat was for the best. We shall witness a great revival of confidence and of business following Maj. McKinley's election. This revival will be prompt, permanent and extensive, because of the unmistakable verdict of the country upon the issues passed upon by the people.

President McKinley's administration is certain to be one of the most notable in the history of the country. His election presages four years of prosperity. These four years will be so beneficial to the nation that the blessings of McKinley's election will be everywhere apparent in the land. Four and probably eight years of prosperous times will eliminate the disturbing issues which now agitate the nation, and clear the way, let us hope, for a future even grander than our past.

Four and probably eight years of prosperous times will eliminate the disturbing issues which now agitate the nation, and clear the way, let us hope, for a future even grander than our past.

At 7:30 last night the compilation at San Francisco placed McKinley 7247 ahead of him in this State. The counties of Del Norte, Modoc, Lassen, Inyo and Alpine are the only outlying counties from which full returns cannot be received within twenty-four hours. At the gubernatorial election of 1894 Del Norte cast but 609 votes, of which 238 were Republican; Modoc, 113, of which 337 were Democratic and 289 Populist; Alpine, 98 votes, of which 68 were Republican; Lassen, 1066, of which 421 were Republican; and Inyo, 872, of which 476 were Republican. Hence it is difficult to see how any vote in the five counties above named can change the result of the late reports.

The New York Evening Post reports only 1500 Republican majority in Delaware, but it must be recollected that Delaware is a very small State, about as big as an average county in Arizona or Washington. In the gubernatorial election of 1894 Joshua H. Marvill carried it by 632 for the Republican party, there being a Prohibition vote of 589. "The Blue Hen's Chicken" polled a total of only 39,128 in that year, so that nothing but a close vote could have been expected.

Alameda takes the cake—also the banner.

Superlatively useless in campaign is Chairman Jones of the Democratic National Committee. He was sending out false hopes to his party all day yesterday and causing Democrats to bet and lose money on the election. He is a worse prophet than he is a politician, which is saying a great deal just at this time. If there is a politician who has been more thoroughly discredited than another in this campaign, it is Jones.

The election of William McKinley means the erection of six more big beet-sugar factories in this State before the close of 1897. That is just six more than would have been built had

the people's choice fallen on Bryan. But Bryan not only was not the choice of the people, but he was really not the choice of his own party—that is, if one could only find out to which party he actually belonged.

The small majority given by Los Angeles county, in this election, can only be accounted for in one way. The silver orators told the workingmen that all they had to do was to elect Bryan and they would all have plenty of work. So those who were at work voted for McKinley and those who were not of work voted for Bryan—and that is all the good it did them.

If anything further were necessary to demonstrate the wisdom shown by the烟雾 of the smoke from the battlefield and the lurid fires dwindle into smoldering embers, and the glorious flame of victory lights the nation's horizon, the thought comes back as to how the battle was won. Clearly by a coalition between capital, labor and good citizenship. The best men of the nation came voluntarily to the support of McKinley merely because he stood for good government, national honor, sound money and obedience to the law of the land. He therefore represented all that was eminently worthy of preservation in the American republic, and his victory was an assured fact the moment he was nominated.

The battle for McKinley in California has not been an easy one. The fight, so far as The Times is concerned, was a lonesome one in the outset. The Examiner, owned by a silver-mine owner, was wedded to his own interests, which was naturally to be expected, but the aid of the Call and Chronicle was merely half-hearted. From the very day he was nominated till the polls closed, it seemed as if those papers were for McKinley all the time.

The Times

ALL ALONG THE LINE.

Down in San Diego county, Mayor Billy Carlson was relegated to the rear in his race for Congressmen by a vote which must dampen the ardor of even his political Mark Tapley.

NEBRASKA'S FAVORITE SON.

A telegraph man in an office sat, Out West, out West; When in came a man without a hat, Or coat or vest.

"Pray speed this message over the track:

"The Willie Boy has broken his back; The people voted to give him the sack."

Sing Tra la la la la la loo!

The answer they gave him was short and direct,

It was, it was.

It said: "Yours received; give us rest—collect..."

it did, it did.

But he was led to the mocking of fate; He pawned his crown and bought him a crate,

And salled up the Plate on the limited freight.

Singing Tra la la, la la, boo hoo!

MADE THE ENGINEER'S SWEAR.

Commission Created by an Innocent Farmer and His "Bandanner."

Express No. 1 was tearing along at tremendous speed, making up time, when all at once the engineer saw a man down the line where a wagon had crossed the track, waving something red with frantic energies. The air brakes were instantly applied, and the engine reversed. With a rush of hissing steam, a roar of grinding wheels and a cloud of swirling dust, the train came to a stop just as the man by the side of the track was reached, says the Chicago Times-Herald.

"What's the matter?" shouted the excited engineer, thrusting half his body through the windows of his cab. "Nothin', as I know on," replied the man.

"What'd you flag the train for?"

"Doin' flag no train."

"Yes you did. You stood there and waved a red flag, which everybody knows is a sign of danger, and so I stopped the train."

" Didn't wave no red flag."

"Yes, you did. You waved something red."

"Course I did. That was my red bandanner handkerchief. I was just a-wavin' a good-by to my gal, who was a-roarin' to town on a load o' pumpkins. Thar she is now, going round the corner yonder. See her?" and the red "bandanner" was again waved frantically.

Du Maurier's Wit.

(Boston Herald)—A gentleman, himself a very witty man, remarked the other day in commenting upon Du Maurier's drawings in Punch that the legends printed below them were more comical than the drawings themselves. We are now told that their present owners, most of their authors, a great deal of thought and labor, and the New York Evening Post advances the view that they were a preparation for that phenomenal success in novel writing into which Du Maurier seemed to drop without any special training.

One of the firm of Harper & Brothers tells an anecdote relating to his connection with their magazine which is worth repeating. When he was engaged to furnish the monthly drawings for the magazine, he asked the editor of this periodical, the proprietor of Punch wrote him that they understood his services were theirs exclusively, to which he returned this brief note: "Dear Sirs—Man cannot live by Punch alone." You, of course, will not be surprised to learn that it is not stated how long he was occupied in concocting this, but it is very clever.

Grant's Narrow Escape from Capture
(November Century.) A few days before an occurrence had happened which came very near depriving the armies of the services of Gen. Grant in the Virginia campaign. On his return to headquarters after his last visit to the President in Washington, when his special train reached Warrenton Junction he saw a large cloud of dust to the east of the road. Upon making inquiries of the train master, he learned that Col. Mosby, who commanded a partisan Confederate force, called by his own people Mosby's "conglomerates," and who had become famous for his cavalry raids had just passed, driving a detachment of our cavalry before him. If the train had been but a few minutes earlier, Mosby, like Christopher Columbus upon his voyage to this country, would have discovered something which was not looking for. As the train carried no guard it would not have been possible to make any defense. In such case the Richmond command would have reached Richmond a year sooner than he finally arrived there, but not at the head of an army.

SILVERITES GREATLY ALARMED

TALKED TOO MUCH WHITE METAL FOR GROVER'S TASTE.

The President Dismisses a Number of Spotted Men Who Had Been Laboring for the Silver Party. Great Alarm.

(By THE TIMES SPECIAL WIRE,) NEW YORK, Nov. 4. (Special Dispatch.) The Sun's Washington special says:

The too-small political activity in the campaign by the office-holders of the administration is to be punished by the President, and the headsman's ax will shortly fall in the case of a number holding responsible positions in various departments. For several weeks Secretary Carlisle and the President have had their eyes on several officials who have spent the best part of their annual leave making speeches throughout the country and during the election of Bryan, and today many of them are dismissed, and several others are to go shortly.

The reason assigned is not given in the letters of dismissal, but the officials of the treasury this evening admitted it was because the President didn't believe the office-holders had any right to advocate the election of a ticket opposed by the administration. The first act of Secretary Carlisle this morning was to cleave the heads of four men holding office under his department, and Auditor Baldwin, an appointee of Senator Gorman, it is said, will be before the week closes. William B. Fleming, chief of the Law and Records Division of the Supervising Architect's office, was active in the late campaign and placed himself at the disposal of the Popocrat Congressional Committee here, which sent him around the country making silver speeches. He spoke in Virginia, West Virginia, Maryland, Ohio, and several other States, and gave up the greater part of his leave to the silver cause. Fleming has come from Secretary Carlisle's State.

Thomas F. Brantley of South Carolina, Auditor for the Interior Department, was also dismissed because he took two weeks' leave and declined to go to West Virginia. Brantley did not reflect on the administration, but spoke openly in advocacy of Bryan.

Burton Doyle, who holds an important place in the same department, also received his sailing orders. A clerk named Leech was another one spotted by Carlisle and sent away. Before the week closes Deputy Commissioner of Pensons Bell will probably be asked to get out. Bell was particularly active and accompanied Bryan throughout his West Virginia tour.

These alarms today have created great alarm among those who are ardent Bryanites, and in the campaign it is understood that several more resignations will follow. Assistant Secretary Doe is another officeholder whose conduct in the canvass did not please the President. General Doe comes from Wisconsin, and is the only assistant secretary of any department who supported the Popocrat ticket.

VOTE OF LOS ANGELES

THE COUNTY CARRIED BY LESS THAN A THOUSAND.

The City Goes for Bryan by a Small Plurality but is Saved by the County.

A CLOSE CALL FOR M'LACHLAN.

BULLA AND THE REPUBLICAN ASSEMBLYMEN SAFE.

Republican Superior Judges, Supervisors and City Justices Elected. Full Returns from the County Except two Precincts.

Los Angeles county will have to return the silken banner to Alameda county, which has given 5300 plurality for McKinley. The meager plurality of 933, which McKinley secured over Bryan, did not come from Los Angeles city, which has gone on record as committed to a temporary attack of Bryanism. The vote in the city was 932 for McKinley, and 975 for Bryan, with a plurality for the latter of 433. To redeem this record the county precincts came to the rescue and by a strong showing of Republican majorities overcame the adverse vote of the city proper, and turned defeat in the city to victory in the county at large. By the aid chiefly of Pasadena, the National Soldiers' Home and Pomona, Bryan's plurality of 433 in Los Angeles city was turned into a plurality of 935 for McKinley in Los Angeles county. The total vote of the county stood 16,888 for McKinley, and 16,663 for Bryan.

With the exception of one Assemblyman, McCulloch, and one Supervisor, the Republicans carried the county from the Presidential electors to the bottom of the ticket. The margin was not so broad as usual in Los Angeles county in past years, and at the same time no small share of the credit of the victory is undoubtedly due to the sound-money Democrats, who recognized the crisis that existed and appreciated the futility of making the fight under their own standard, when they could prove so much more effective in strength by joining forces with the supporters of McKinley.

In the Congressional contest the opinion was prevalent yesterday that the vote cast for McLachlan and Barlow was running high, but late last night word was received that in the Sixth District McLachlan was about 1000 votes ahead of his opponent. In Los Angeles and Monterey counties the Republican candidate had but a slight lead, while the case was reversed in San Joaquin.

Among the legislative candidates Bulla was elected to the State Senate over Jones by the largest majority received by any candidate for office on the ticket. He distanced his opponent by 1000 votes. The two other six Assemblymen elected are Republicans, all picked in the Seventy-first, District, Voshburg in the Seventy-second, Kenyon in the Seventy-fourth and Cross in the Seventy-fifth. Mead (Dem.) defeated McCulloch (Rep.) in the Seventy-third.

Of the three Supervisors elected, two, Wirsching and Davis, are Republicans and one, Hanley, is a Democrat. Even the two candidates for City Justice were elected by good majorities.

All the returns are now in except from the outlying precincts of La Liebre and Liano, which cast but a small vote and will not affect the general results as declared.

The Tired Crowd, and the Eagle Hoarsely Exult Over Victory.
It was a tired, but enthusiastically jubilant crowd that gathered last evening to see The Times' election bulletins. Each shout was so hoarse that it seemed as if it must be the last, but ever again rose the yell of exultation as the dispatches brought the news of McKinley's growing strength. The campaign is telling severely upon the Eagle. The old bird has been upon a protracted "toot" for the past two days, and is suffering from an aggravated case of sore throat. It still had voice enough, however, to emit a scream from time to time.
The crowd was a good-natured one. The Republicans were happy, but could afford to be magnanimous, and as one observer observed, "They were very decent about their victory." A few irreconcilables were to be found who still refused to believe Mr. Bryan's election, and clung desperately to the forlorn hope that some back count would yet come forward with a Democratic majority sufficient to change the result.
At the Wigwam funeral gloom prevailed. Even the lightning calculator of the Silver Republic Club had at length abandoned his hopeless task of figuring out Bryan's election. A few scattered groups occupied the board seats and gazed at the colored pictures flung upon the screen in lieu of news. In the streets and other places of assembly, however, partially checked, the people were getting tired being whipped this way. "Well, what is it?" answered the hopeful suddenly exclaimed: "I'm getting tired being whipped this way. Will you do something for me, mamma?" "Well, what is it?"
"Pray God to take me to heaven." "He would not have anything to do with a bad boy like you," she responded, scarcely able to control her mirth at the request. "You will have to be a much better boy than you have been lately before you can expect to go there."
"Well, then, tell Him to take me to the other place," was the angry retort.

(New York Press.) Pretty teeth are very often at the foundation of a girl's reputation for jollity. A precious little East-end girl, the son of a well-known dentist, has furnished the household with more than a little amusement by the remarks he frequently makes, which are filled with originality and humor. Recently he has told his mother and several of his relatives that he is going to be a "rector" that is usually found in every well-regulated household, and which was not unknown to him, on account of some misbehavior. After she had finished her lecture, the boy checked the door and said, "Mother, I have checked the door and the rest of tears are falling." The boy then burst into tears and said, "Mother, I have checked the door and the rest of tears are falling."

Some girls' mothers must be forgetful, because they were so good when they were young that they didn't need watching.

Some women think that making a man a good wife means making him wear a piece of red flannel around his waist. He is not, however, a good wife.

Charters is Innocent—Mrs. Olga Michelsen is Committed to the Home for Feeble-minded.

A GRIST OF LIQUOR LICENSES

ACTED UPON BY THE BOARD OF POLICE COMMISSIONERS.

The Fire Department Sensation of Last Week Will Be Given Another Whirl This Afternoon. Municipal Matters.

At the City Hall yesterday the Police Commission and Fire Commission held meetings. The further investigation of the alleged irregularities found in the fire department pay-roll was postponed until this afternoon.

At the Courthouse yesterday Charters was acquitted of the charge of burglarizing Warren's store. Quijada received sentence to life imprisonment in Folsom. Mrs. Michelsen was committed to the Home for Feeble-minded Children. Ken's bonds were fixed at \$100 upon a charge of having little lobsters in his possession. Chew Wing Gow's sentence was continued to November 12. The Supervisors found little money for the immigration fund.

(AT THE CITY HALL)

WAS NOT BROUGHT UP.

CHIEF MOORE AND HIS PAY-ROLL TO COME LATER.

The Fire Commission Will Discuss the Delicate Matter This Afternoon in Special Session—Police Board Business.

Contrary to expectation, the Fire Commission at its meeting yesterday morning, failed to discuss or continue the investigation of the alleged discrepancies found to exist on the fire department pay-roll. The Commissioners have not dropped the matter, but other business pertaining to the fire department engaged the board's attention yesterday, to the exclusion of this "pay-roll" business. The board will meet this afternoon, in special session, to continue the investigation begun last Friday.

Assistant Chief Smith yesterday submitted following brief report to the board, in which he urges certain modifications with dereliction.

"On the 4th, at the fire at No. 1174 South Broadway, the following members of the department failed to do proper fire duty, and acted in a cowardly manner: Capt. Rowan of chemical company; Mr. Driver Sennell of steam company; Foreman Young of engine company No. 3." The commission postponed action upon this matter until the next regular meeting.

Quijada had lost his air of bravado and appeared meek and downcast, as if comprehending the full import of his sentence, in spite of his low order of intelligence.

vention, to consist of the same delegates, and to meet next Saturday at 2 p.m. in room Turner Hall, when steps will be taken to fill the vacancy caused by Mr. Francis' declination.

Letters of acceptance of various other candidates were read and filed. It is expected that all will be in before noon. At the convention, there will have more work to do.

Judge McKinley having decided that W. E. Keller, the nominee for Council in the Seventh Ward, is ineligible, it will be necessary for the convention to nominate some one in his place.

(AT THE COURT HOUSE)

CHARTERS NOT GUILTY.

THE JURY SAYS HE DID NOT BURGLARIZE WARREN'S STORE.

Quijada Declared He Was Innocent and Objected to Sentence Being Pronounced Upon Him—Brief Review of the Courts.

Charles Charters, charged with burglarizing the store of C. T. Warren, on the East Side, was acquitted by a jury in Department One yesterday.

Charters was charged jointly with F. J. Brown in the burglary of Warren's store. The cause was severed for trial. The goods recovered from the possession of Charters consisted of several cans of varnish, a number of paint brushes and other articles, valued at \$20 to \$50.

Charters claimed that the goods were purchased innocently from a third party. He proved a good reputation and the jury believed his statements, bringing in a verdict of not guilty within a few minutes after retiring.

The prosecution was conducted by Deputy District Attorney McComas, W. T. Blakely, Esq., appeared for the defendant.

Deputy McComas made the statement to the court that he thought it would be as well to dismiss the complaint against Brown, as the people's best case was against Charters, and he had been acquitted. Detective Steele objected and Brown must stand trial. The court was not inclined to dismiss the action and it will be heard soon.

Goes to Folsom.

Quijada Claimed Innocence and Objected to Life Imprisonment.

Francisco Quijada, convicted by a jury of the murder of José M. Ochoa and sentenced to the court for sentence to life imprisonment, appeared before Judge Smith yesterday and was sentenced to confinement in Folsom prison during his natural life. When the defendant was asked if there were any reason why sentence should not be suspended, he replied through an interpreter that there was reason why he should not receive sentence, and continuing, said: "I am innocent; I did not kill Ochoa; somebody else killed him."

Quijada had lost his air of bravado and appeared meek and downcast, as if comprehending the full import of his sentence, in spite of his low order of intelligence.

A FAULTY COMPLAINT.

Allen Estate Trustees Pay Mrs. Papach's Costs.

In the suit of Adeline Jonson and James F. Allen, trustees of the estate of Annie Allen, against Mrs. A. Rapsch for \$40 rent and restitution of the premises described as No. 110 Temple street, in which she conducted a fruit and grocery business, the plaintiff was agreed to amend the complaint. Damages were also asked in the sum of \$250 for detention of the store-room. The defendant seeks damages in the sum of \$500, alleged to have been sustained through the closing of a skylight in the building and making the rear rooms uninhabitable for residence purposes; the \$40 claimed for rent is also disputed, the defendant claiming that \$30 was all that was due for a certain month beginning.

An application from J. E. Lausen for permission to erect and operate a distillery was referred to the chief, and the application of Emmitt Ellin, Charles A. Colburn and Alonso H. Brown, for appointment as calmen, were ordered filed.

Charges of maltreatment were preferred by Mrs. Anna M. Hall against her husband, who is a member of the fire department. The board directed the chief to have Hall present at the next meeting of the commission.

A communication was received, in which complaint was made that a nuisance was being maintained at the rear of the Wilson Block on Second street. The letter was referred to the chief. The application of W. E. Staley for permission to erect and operate a boiler and engine on lot 8 of the Truman tract was referred to the chief.

Chief Moore informed the board that the new engine-house on Hill street will be ready for occupancy about November 20.

POLICE COMMISSIONERS.

Action Taken Upon Applications for Liquor Licenses.

A large number of persons interested in having the license for the saloon at 138 North Main street, known as the National Concert Hall, appeared before the Police Commission yesterday afternoon to state their case and uphold their petition. The saloon was represented by an attorney, who stated his client's case in the usual strain. The board heard both sides of the matter and deferred action until the next meeting.

The following application for liquor license was granted by the board: C. E. Lewis, trustee, and Broadway. The board denied the application of Ed Belloff for a license at Twelfth and Central avenue. The application of F. Brauner for a license at 220 West First street was referred to the chief for further information.

V. L. Lewis' application for a liquor license at 1320 Vernon street was referred to the chief, who was also that of Fred Erb at No. 229 North Main street. Action was again deferred upon Conrad's application for a transfer at First and Alameda streets from A. C. Corson to himself.

I. D. Jaynes was elected a special officer, to serve without pay, at the Childs property.

PASADENA.

PROPERTY-OWNERS CONTEST THE RAILROAD FRANCHISE.

A Vigorous Plan in Behalf of the Public Meets with Little Response from the Trustees—News Notes and Personals.

PASADENA, Nov. 4.—(Regular Correspondence.) There was a hot session of the City Council this afternoon over the granting of the franchise to the Southern California road for a double track to cross Walnut and Locust streets. The property-owners have made a stubborn fight, and Trustee Reynolds has done all in his power to make the other members of the Council see that they were endangering the safety of school children, and taking steps to fasten upon a residence neighborhood a switching yard, which would be a nuisance. Attorney Metcalfe appeared for the property-owners, speaking for the interests of fellow-citizens, and not as a retained attorney. He placed before the Council all the arguments against their proposed action, and urged their duty upon them. Mr. Maginnis followed with an option which for the sum of \$5000 the railroad would abandon its old right-of-way and place its tracks near together. Trustee Reynolds submitted an amendment to a section of the ordinance in which he sought to protect the property-owners against the switching nuisance, and when no second was offered, moved that the amendment be referred to the board their duty, as a matter of courtesy, to second the amendment, in order that its substance could be properly put before the board. This was finally done, but the amendment was voted down.

Mr. Metcalfe, when some statements were made by one of the railroad attorneys regarding what the company desired, referred to the fact that several prominent citizens had appeared before the board, and the thought was then passed on to the matter. When Mr. Hamilton made an exceedingly rude remark against the subject, Mr. Metcalfe paid his respects to that statesman, and told him, how when a brick-yard was to be placed in his own neighborhood, he caused it to be passed excluding it, and this in a case where his own private interest was at stake. He reminded him that the people who bought the brick-yard property were restrained from using their land, and they were not relieved of any tax for it, but now, when the interest of the whole city was at stake, he would do nothing to aid the people, and would not even place his dissent on the project to take \$5000 of the people's money out of their pockets, or to it to the railroads, something that was not theirs, and to which they could not give a clear title, as it was known that the property in question would revert to Mr. Legge should it not be used for railroad purposes.

The doughty statesman of the south-east section of the city was completely silenced. Throughout the whole proceedings Trustee Washburn evinced a determination to hold his opinion upon the question of fastening upon a neighborhood remote from that in which he owns property, a nuisance to which the whole neighborhood objects, although but a few months ago he refused to permit a Catholic church to be located in his own neighborhood; the objection coming from himself, and not from the people generally, and the lives of the little children were not threatened. No defense of his position has been offered, but he takes the ground that the entire objection is utterly groundless, and that Trustee Reynolds with some heat if he desired to have him stand in the position of opposing the board.

PASADENA BREVITIES.

The McKinley Club of Pasadena enjoyed itself in a characteristic manner Tuesday night. The wigwam was the place of entertainment, and every sort of noise known to man was brought into requisition to assist in the display of the McKinley enthusiasm. There were a large number of ladies in the audience, who enjoyed the hullabaloo as much as did their male companions. The more enthusiastic club members, when the success of Maj. McKinley became apparent, formed an impromptu procession, shouting and cheering and shouting for sound money they marched to the Bryan headquarters, but found them dark and deserted. The Twilight Club received bulletins at Hotel Green, Judge Cody, and several other meeting places. The Valley Hunt Club sent express orders, amusing, among those being some living pictures illustrating incidents of the campaign, especially that of the career of the Box Orator of the Platte.

Mr. Chaplin was a member of the Chaplin family of Springfield, Mass., that has given many celebrated men to the country, and was 71 years of age at the time of his death. He has lived in Pasadena about eighteen years, coming here from Chicago, where he is well known, having been a resident of that city for forty years previous to his arrival in California. The funeral will be held at the family residence at 10 o'clock Thursday, Rev. W. H. Hall officiating.

A man by the name of Hattaway, who was smitten with a malignant disease this afternoon, with sufficient Democratic whisky to make him ugly, draped an American flag with cape and carried it through the streets and into the Republican wigwam. Being requested to remove it, he refused, and failing to comply, the Marshal arrested him and placed him in jail to recover his normal tone of mind.

SANTA BARBARA COUNTY.

REPUBLICAN CANDIDATES GENERALLY ELECTED.

Contest Threatened by De la Cuesta, Democratic Nominee for Supervisor—“Cap” Harris Will Go to the Assembly—Judge Cope Re-elected.

SANTA BARBARA, Nov. 4.—(Regular Correspondence.) While the returns are not all in at the present writing, the results are such that it will be utterly impossible to change them without a contest, which is only threatened in one instance. Ed de la Cuesta, the defeated Democratic candidate for Supervisor in the Santa Ynez district, claims fraud in Los Olivas Precinct 10, and is threatening to file a suit in that precinct against the election in that precinct with a view to having it thrown out. It is thought by others that he will not attempt a contest, as it would open up the old Hope Precinct feud and add to the fury of the voters there who were deprived of the privilege of voting for De la Cuesta, and to start a new suit in that precinct from one Supervisor district to another just before election. As it stands now St. John (Rep.) is elected Supervisor in the Santa Ynez District by a small majority. Frank Broughton (Dem.) succeeds himself as Supervisor in Lompoc District and Alston Haine (Ind.-Dem.) defeated all the regular nominees for the office of Supervisor in the Carpenteria District.

Jesse Boyce, State Senator by a good safe majority. The returns are not complete from either this or Ventura county, but his majority is such that it cannot be overcome by the entire outstanding vote. This is regarded as a great victory against boodle and a stroke to Gov. B. Bud, who gave Senator Boyce such an uncalled for and unjustified slap in the face two years ago.

“Cap” Harris is elected to the Assembly by between 200 and 300 votes, and the only place where he was called out in the Assembly fight but the former cut no figure at all and the latter, if it had any weight was on the opposite side from what was on trial. The only place that Harris called to cut out was in a few precincts in and around Lompoc but his majorities here were such that he had votes to spare.

Judge Walter B. Cope, Democratic nominee for Superior Judge, succeeded in defeating his political opponent, Capt. Thomas McNulta, and not from the people generally, and the lives of the little children were not threatened. No defense of his position has been offered, but he takes the ground that the entire objection is utterly groundless, and that Trustee Reynolds with some heat if he desired to have him stand in the position of opposing the board.

THE REPUBLICANS HOLDING A JUBILATION.

Populist Paper Too Previous in Its Claims—Preparations to Ratify McKinley's Election—San Diego Brevities.

SAN DIEGO, Nov. 4.—(Regular Correspondence.) Republicans and sound-minded Democrats wore broad smiles this morning. The intense excitement for the past twenty-four hours continued, and the bulletin boards crowded with eager men are gathered awaiting fuller returns. One by one the staunchest of the silver advocates are abandoning any slight hopes that they entertained through the night of the success of their national favorites. At this writing the election of Congressman Bowers appears to be assured. Judge E. S. Torrance, (Rep.) is reelected to the Superior bench; also J. W. Hughes, the fusionist candidate. W. R. Guy is reelected Republican Assemblyman for the Seventy-ninth District. J. L. Dryden, fusionist, is elected Assemblyman in the Eightieth District. The Supervisors elected are Republicans, H. C. Cherry and W. J. Swett, in the First and Second Districts, and J. A. Jason Democrat, in the Third District. Returns from 60 out of 86 precincts of this county give McKinley 317; Bryan, 313. This is a gratifying return, inasmuch as conservative estimates had placed the Bryan column by 500 to 800 majority. At this writing the best returns obtainable indicate that Bowers, Republican Congressman for the Seventy-ninth District, has a majority in five counties of about 1800 and that Castle has a majority in six others, making a total of about 2000 to 2500 for the head of the ticket.
